

Coast Guard, DHS

§ 181.29

§ 181.21 Purpose, applicability and effective dates.

This subpart prescribes the requirements for identification of boats to which section 46 U.S.C. 4301 applies.

[CGD 79-013, 48 FR 40718, Sept. 9, 1983, as amended by USCG-1998-3799, 63 FR 35534, June 30, 1998; USCG-1999-5832, 64 FR 34716, June 29, 1999]

§ 181.23 Hull identification numbers required.

(a) A manufacturer (or importer), as defined in § 181.3 of this part, must identify each boat produced or imported with two hull identification numbers that meet the requirements of this subpart:

(1) A primary hull identification number affixed in accordance with §§ 181.29(a) and (c) of this subpart; and

(2) A duplicate hull identification number affixed in accordance with §§ 181.29(b) and (c) of this subpart.

(b) A person who builds or imports a boat for his or her own use and not for the purposes of sale, must identify that boat with two hull identification numbers that meet the requirements of this subpart.

(c) No person may assign the same hull identification number to more than one boat.

§ 181.25 Hull identification number format.

Each of the hull identification numbers required by § 181.23 must consist of twelve characters, uninterrupted by slashes, hyphens, or spaces, as follows:

(a) The first three characters must be a manufacturer identification code assigned under § 181.31(a) or the importer designation assigned under § 181.31(b).

(b) Characters four through eight must be a serial number assigned by the manufacturer in letters of the English alphabet, or Arabic numerals, or both, except the letters I, O, and Q.

(c) Characters nine and ten must indicate the month and year of certification when a date of certification is required. In all other cases characters nine and ten must indicate the date of manufacture. The date indicated can be no earlier than the date construction or assembly began and no later than the date the boat leaves the place of manufacture or assembly or is im-

ported into the United States for the purposes of sale. Character nine must be indicated using letters of the English alphabet. The first month of the year, January, must be designated by the letter "A", the second month, February, by the letter "B", and so on until the last month of the year, December. Character ten must be the last digit of the year of manufacture or certification and must be an Arabic numeral.

(d) Characters eleven and twelve must indicate the model year using Arabic numerals for the last two numbers of the model year such as "82" for 1982 and "83" for 1983.

§ 181.27 Information displayed near hull identification number.

With the exception of the characters "US-", which constitute the country of origin code for the United States, if information is displayed on the boat within 2 inches of the 12-character hull identification number (HIN), that information must be separated from the HIN by means of borders or must be on a separate label, so that it will not be interpreted as part of the hull identification number.

[USCG-2003-14272, 69 FR 33860, June 17, 2004]

§ 181.29 Hull identification number display.

Two identical hull identification numbers are required to be displayed on each boat hull.

(a) The primary hull identification number must be affixed—

(1) On boats with transoms, to the starboard outboard side of the transom within two inches of the top of the transom, gunwale, or hull/deck joint, whichever is lowest.

(2) On boats without transoms or on boats on which it would be impractical to use the transom, to the starboard outboard side of the hull, aft, within one foot of the stern and within two inches of the top of the hull side, gunwale or hull/deck joint, whichever is lowest.

(3) On catamarans and pontoon boats which have readily replaceable hulls, to the aft crossbeam within one foot of the starboard hull attachment.

(4) If the hull identification number would not be visible, because of rails,
